

## The filter that delivers crystal clarity

Filtering with diatomaceous earth (D.E.) gives you water that really sparkles. That's because D.E. filters remove the tiniest of contaminants...particles as small as 5 microns. (An average grain of sand is 1000 microns!) Even though these particles can't be seen individually, collectively they greatly affect water clarity.

Here's why diatomaceous earth filters work so well. Water passes through a series of D.E. coated grids. Under a microscope, D.E. looks like a collection of tiny sponges. And just like a sponge, water can pass through, but microscopic impurities like dirt, algae, and some forms of bacteria can't.

FNS<sup>®</sup> Plus D.E. Filters have been designed with curved grids to maximize filtration area. More filter area means better performance and longer periods between cleanings. Our exclusive internal design has been refined to minimize flow restrictions, and therefore requires minimal pumping power to achieve a needed flow rate. That means lower utility costs.

In addition to providing the clearest possible water, FNS Plus was also designed for easy maintenance and long-term reliability. So you can count on it to keep your pool's water clean and crystal clear for years to come.

- Curved vertical grids provide maximum filter surface area for greater dirt-trapping capacity and longer periods between cleanings.
- Unique internal design ensures optimum filtration and backwashing efficiency.
- Chemical resistant, fiberglass reinforced polypropylene tank for exceptional strength and long life.
- Easily removable filter grid pack to simplify maintenance and save you time.

# FNS<sup>®</sup> Plus Fiberglass D.E. Filter

Corrosion-resistant fiberglass tank for long life

Tension Control™ clamp for secure closure

2" plumbing connections for maximum flow

Conveniently located 1 1/2" drain for easy and efficient cleanout and 100% draining

Model Number	Filter Area Sq. Ft.	Vertical Clearance*	Filter Diameter	Flow Rate GPM		Turnover Capacity (Gallons)		
				Res.**	Com.***	8 hours	10 hours	12 hours
FNSP 24	24	48"	21.5"	60	48	23,040	28,800	34,560
FNSP 36†	36	62"	21.5"	90	72	34,560	43,200	51,840
FNSP 48†	48	74"	21.5"	120	96	46,080	57,600	69,120
FNSP 60†	60	86"	21.5"	150	120	57,600	72,000	86,400

## The culmination of 40 years of pool filter experience

The FNS<sup>®</sup> Plus filter's time-tested design offers you maximum performance, convenience, and reliability for year after year of sparkling clear pool enjoyment. No wonder more than 2 million Pentair filters have been installed by pool professionals.

- Attractive almond-colored tank blends into any backyard environment.
- High Flow™ manual air relief valve and continuous internal air relief work together to maintain efficient filtration and prevent over-pressurization.
- Easily accessible 2" drain for efficient cleanout.
- One-year limited warranty. See warranty for details.

† NSF Listed.

\* Required clearance to remove filter elements.

\*\* Maximum flow rate.

\*\*\* Flow rate is based on 2.0 GPM per sq. ft. of filter area. Actual system flow will depend on plumbing size and other system components.

### How a D.E. Filter Works

When diatomaceous earth (D.E.) is introduced into the filter system, it coats the filter cloth. As water passes over the filter grids, the D.E. particles capture even the smallest suspended dirt particles. When cleaning is needed, the water flow is simply reversed.
